

MINI-BREAK: WHAT IS AN OBJECT THAT HAS GOOD DESIGN?

MACBOOK

Clean design, close tolerances, aesthetic, ergonomic

Phone case

Place for credit/id cards, manufactured edges to keep dust out of sensitive places, reinforced corners for most sensitive part

Box cutter

Tight tolerances (blade must retract/extend cleanly and safely)

Ergonomic design (comfortable to hold and non-slip grip)

Easy-to-use (sliding mechanism is intuitive and well-grasped)

Bright colors (yellow, stands out in a construction/cluttered environment)

Apple AirPods Pro

Cute shape

Lightweightness

Longer using time (higher battery capacity compared to last generation)

Noise cancelling

Pilot pen:

-fine tip, can write precisely

-comfortable grip, easy to hold, non-slip

Headphone stand:

Durable, easy to assemble and disassemble, cheap to manufacture, easy to use with speaker inside.

Coffee Mug

Simple design/easy to manufacture, handle for ease of lifting, ceramic to help keep beverage hot/hold heat in

CD case - holds the CD securely, well-designed tolerances (both case itself and CD), every case is the same size/shape. Can be mass-produced easily and cheaply. Smooth surface can be sanitized easily. Keeps good music safe. Only bad design is that I don't have a CD player...but that's more my fault

iPad pencil

Tight design, beautiful cover, precision writing ability.

A one Gallon Water Container

- The handle feels comfortable to hold
- Capable to hold much water so it's convenient
- Its a reusable container so I dont need to buy bottled water often

Bluetooth speaker

- Compact volume and good for portable uses
- Waterproof
- Good sound quality with enough bass

Floor lamp:

- Lightweigth, simple design, demountable

electric toothbrush

- Lightweight, good appearance(smooth curve), many modes in one device

Vacuum Cleaner

- Modular - can be deconstructed to save space
- Cord control - dedicated place to store the cord and auto stores the cord at press of button
- Large storage capacity - large portion of volume dedicated to storage of junk

Prof. Gravish: Double walled Coffee mug.

- **Lid that snaps open and holds itself open**
- **Double wall keeps liquid warm for a very long period of time**
- **Lid is leak proof with a lock**

Cooling pad for laptop

- Can adjust the height of laptop**
- Reduce the heat of laptop when it work**

Nintendo Switch

- The controller has shifting ability**
- Smooth keypress**

The computer mouse:

- Clean surface profile**
- Comfortable to handle**

Compact and efficient in performance.
